

Dear Ms. McCarey,

I am a resident of Petersham Massachusetts and would like to encourage your organization to continue and to expand its energy efficiency programs for the state. Energy efficiency is our cheapest resource with the greatest payback. Please strengthen energy efficiency plans across the board. The 3-year plan should go as far as possible to capture all that is energy effective. Increasing efficiency reduces demand and consumption and that reduces the need for, as an example, a natural gas pipeline.

Thank you for your consideration,
Diane Nassif
