

PA Interim Reporting Solution

*MAREE – Massachusetts Reporting for Energy Efficiency
February 25, 2014*

Improving Access

- PAs are developing a user-friendly, web-based public reporting tool for better access to PA data
- Massachusetts Reporting for Energy Efficiency (MAREE)
 - Up-to-date reported core initiative-level PA data
 - A single central location
- MAREE is a core building block in improved data reporting

How will MAREE work?

- Familiar

Maintains the format of the updated Quarterly Report

- Easy on the Eyes

Graphs & Charts against approved goals

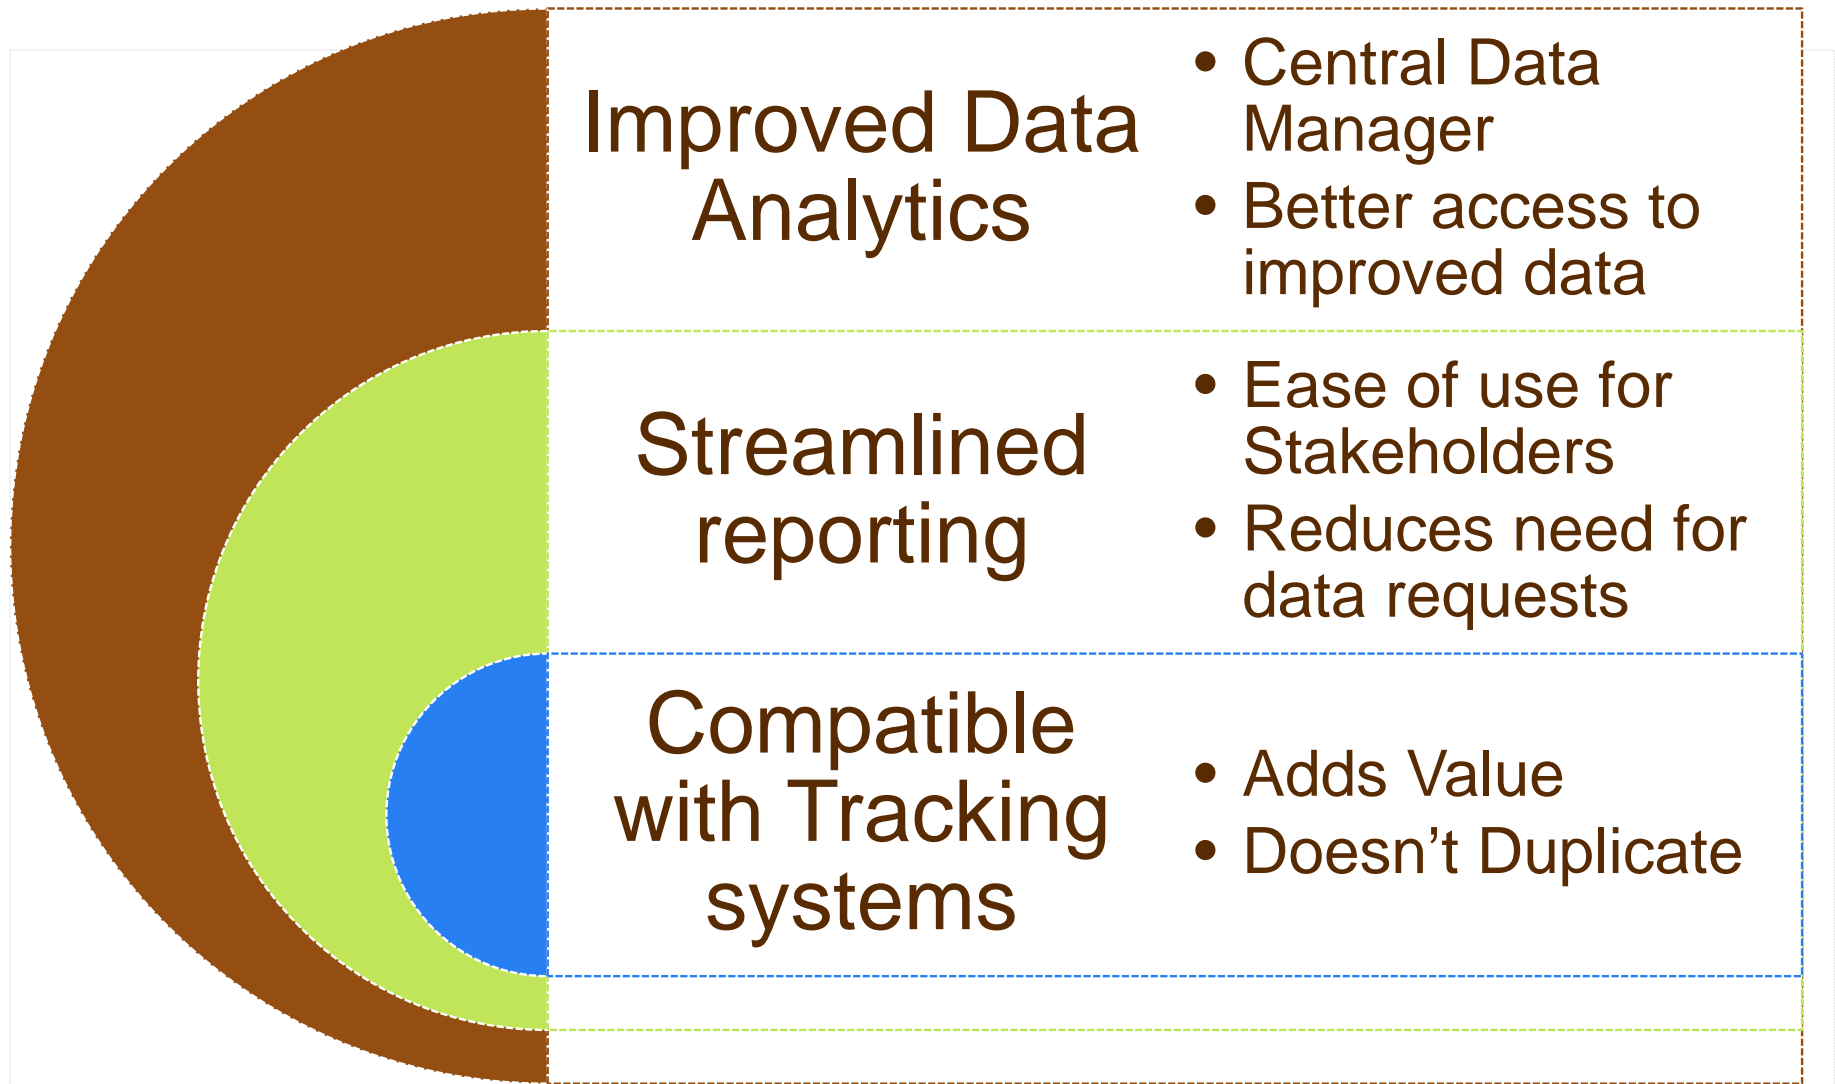

- Available

Export Queries and Data into Excel or PDF

- Flexible

Data by PA or Easy Statewide Rollups

What benefits will MAREE provide?

Detailed Data Categories

Savings, Budget, Benefits

- Details: Portfolio, Program, Initiative
- Segmentation: Statewide, PA territory
- Residential, C&I, and LI
- Detailed Quarterly updates

HES Tab

- Detailed initiative/measure level information
- Total audits
- Closure rate
- Recommended/Installed Measures

Expand to Include Historical Data

- Annual Data
- Back to 2010

Future Data Categories

BCR

- Measure level data
- Similar to BCR input tab

GHG

- GHG Reductions
- Progress Against CECF

Town

- Geographic segmentation
- Likely by town if customer privacy addressed
- Work with towns to better address their needs

Next Steps

- Stakeholder feedback welcome
- Webinar: *If stakeholders are interested after MAREE is live*
- Continue building toward improved access to reported PA data

“Awesome”
