Good afternoon,

Here is my statement of interest in continuing to serve on the Executive Committee:

I would like to continue to represent the Council on the EEAC Executive Committee, as I think I bring valuable perspective. I worked for many years as an energy auditor and weatherization contractor, after which I worked for a Program Administrator. I now help develop and implement climate-related policy for 45,000 units of public housing in Massachusetts, working across multiple Executive Offices.

In short, I have experience working on the ground, designing and implementing programs themselves, and guiding others as an end-user of the programs. Bringing these experiences to the Executive Committee serves the EEAC well by ensuring all perspectives are considered in how and what the EEAC deliberates. I appreciate your consideration.

Best,

Greg Abbe

Sustainability Program Developer Executive Office of Housing and Livable Communities
