Good afternoon all,

I am writing to the Massachusetts Energy Efficiency Advisory Council (EEAC) and the Department of Energy Resources (DOER) staff to formally express my interest in seeking one of the three open positions on the EEAC's Executive Committee. I have been in attendance for many of these meetings and I feel that a continued presence representing the income eligible populations of the Commonwealth is an important one. I thank you for your consideration.

Very respectfully,

BRIAN BEOTE | Director of Energy Efficiency Operations

Action Inc. | Energy Services
