# Update on MSD

## [www.MassSaveData.com](http://www.MassSaveData.com)

- PAs are continually improving and updating
  - PA meeting took place on Feb. 11<sup>th</sup> to discuss future enhancements
  - Bug with 2013-15 current quarter YTD not calculating properly has been fixed
  - Making progress on geographic data but not live yet
- In response to feedback from councilors last month
  - Short term
    - HEAT Loan data
    - Participant definitions
  - Longer term
    - HES tab changes – will be working with implementers to possibly add data on renters, moderate income and heating systems
    - Review best ways to present demand savings

# Planned Enhancements

- Add “last updated on” date to all tables
- Export overview tab charts to .jpg, .pdf, .xls formats
- New graphics on portfolio overview tab
- New looks at monthly data
- Improve usability of exports
- Add ability to download full dataset like master data tab
- Aggregate across multiple years shows the sum and then each of the years separately
- Add expand all option to show all core initiatives

# Feedback? We'd Love to Hear It
