- Taught environmental science/human ecology at the college[umass] and high school level[Putney school]...

## **BIO**

Elliott Jacobson is Director of **Action, Inc. Energy Programs**, which administrates low- and moderate-income energy assistance programs in the Cape Ann area of Massachusetts. In particular, his work there has focused on weatherization (for government and utilities) and Fuel Assistance. Action Inc. is the system-wide operator for the National Grid (Massachusetts) Efficiency Programs for low-income households through 23 weatherization subcontracting agencies.

Elliott is Chairman of the Low Income Energy Affordability Network (LEAN) which was organized to collaborate with Massachusetts gas and electric utilities in order to design and implement the most cost-effective, equitable, and standardized efficiency program practical. LEAN oversees services to over 20,000 households yearly.

Beginning 2008, Elliott has been Councilor on the Massachusetts Energy Efficiency Council governing all utility energy efficiency funds in the state.

Elliott serves currently and formerly served from 1992 - 2001 as an Executive Committee member (Secretary) on the DOE Advisory Board on Energy Efficiency and Renewables reporting to Secretaries O'Leary, Peña, Richardson, Bodman, Moniz, Perry, and Congress. In addition, he has served as Chairman of the New England Community Action Directors Association Energy Committee for 15 years, the Massachusetts Energy Directors Association, most recently from 1986 – 1995, and the Low and Moderate Income Task Force of the President's Climate Change Action Plan (1993 – 1995).

Elliott received a B.A. from the University of Wisconsin, where he majored in history/political science, an M.S. from Antioch College in Environmental Sciences, and an Ed.D. (A.B.D.) from the University of Massachusetts in Environmental Science Policy and Education (Human Ecology).
