

Demand Working Group

January 20, 2016

Overview and Deliverables of Demand Savings Group

- **What**: The Term Sheet and 2016-2018 Plan establish a “small Demand Savings Group” to “explore approaches to cost-effective new demand reduction/peak reduction electric and gas initiatives.”
- **Required Initial Deliverables**: The PAs will provide a report to the Council setting forth the specific **scope**, **tasks**, and detailed **timelines** for this group by the end of Q1 2016.
- **Longer Term Mission**: The successful development and actual implementation in-the-field during the 2016-2018 Plan period of new demand/peak reduction initiatives.

Group Organization

■ Organization

- Steering Committee (PAs/LEAN, DOER, AG, Council Consultant, ISO-NE) with a set of sub-groups
- PAs have a leadership and project coordination role and are responsible for making final proposals
- Anticipated sub-groups include:
 - System level summer peak issues
 - System level winter peak issues (including gas issues)
 - Distribution level peak issues (including geographic targeting)
- Subject matter experts and Councilors with specific relevant experience expected to participate in subgroups and share expertise

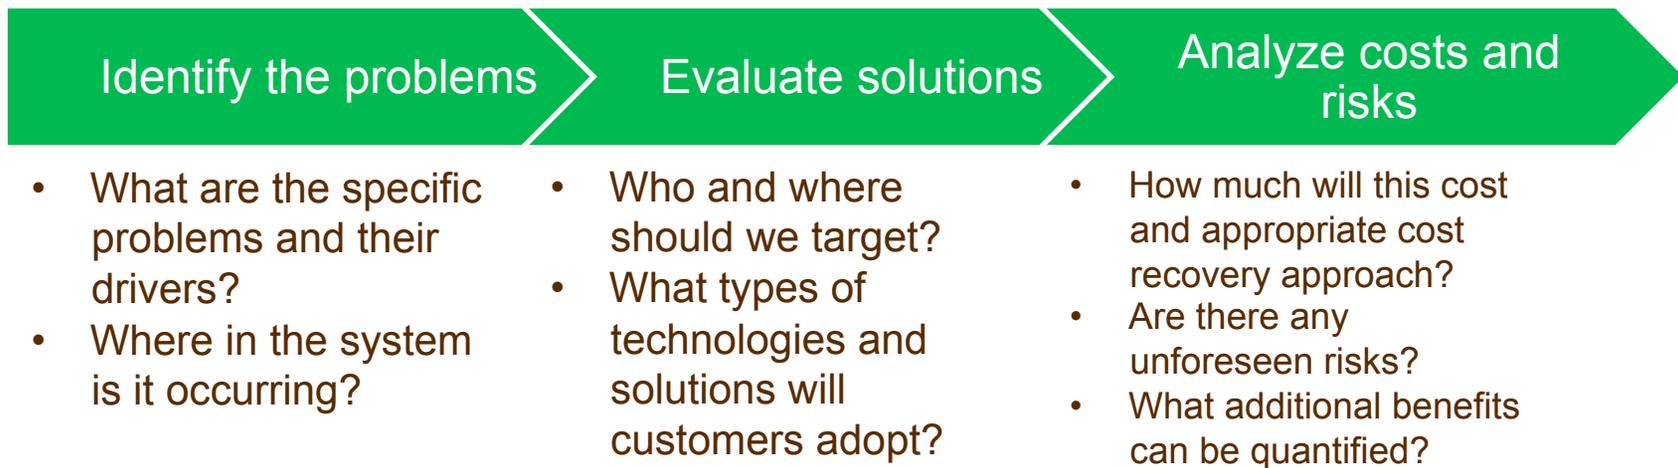

■ Kick-off and Keeping Full Council Engaged

- Kick-off Steering Committee Meeting on January 27th
- Keep group and sub-groups small and comprised of experts for maximum effectiveness
- Steering Committee will report ideas out to full EEAC at appropriate intervals (contemplating monthly) and solicit feedback

Group Goals

Initial goal is to develop a strategy and analytical framework to dictate how we should be thinking about issues surrounding demand reductions

Overarching Methodology

The goal is to prioritize analysis on “biggest bang for the buck” activities and provide actionable insights for implementation.
