

EEAC Executive Committee Candidate: Seat Representing the Commercial and Industrial Sector

Dennis Villanueva, Mass General Brigham

EEAC Seat Representing Massachusetts Businesses and Large Commercial and Industrial End Users

I am grateful for the opportunity to be considered for the open seat at the EEAC executive committee representing the C&I sector, I think I have a lot to offer to help continue the important work that the EEAC has done. I work regularly with networking groups that include many large energy users in the C&I sector and from which I can channel input to help shape the EEAC operation and programs. I have the privilege to work for an organization operating throughout Massachusetts that has provided me an opportunity to work with several gas and electric utilities, each with its own idiosyncrasy and approaches to execute EE programs. I thank you in advance for your consideration.
