

Performance Metrics

Summary of DPU Orders

Performance Metrics

DPU principles for performance metrics:

- Distinct and clear PA role
- Verifiable goals
- Clear baseline

Performance Metrics

DPU found that a number of the metrics did not meet one or more of these criteria

Primarily focused on statewide metrics that did not include individual PA targets, specified baselines, or goals that were “not objectively verifiable.”

The DPU ordered the PAs within 45 days of the date of the Orders, to “work with the Council and refile revised metrics for consideration by the Department.”

Performance Metrics

Other DPU rulings:

The proposed EMV metric was rejected, as it requires no additional action than what is in the plans

Directs the PAs “to include a performance metric that appropriately encourages pursuit of outside funding.”
